Assessment information

The time allowed to complete this assessment is **2 hours**.

This assessment consists of 13 tasks and it is important that you attempt them all.

- You will be asked to produce documents and reports to demonstrate your competence.
- You must then upload these documents so they can be marked by AAT.

All documents must be uploaded within the **total time** available. It is important that you upload **all** reports and documents specified in the tasks so your work can be assessed.

You will be able to attach and remove files throughout the duration of this assessment until you click on 'Finish', which will submit your assessment.

All uploaded documents should be saved and titled with the following information:

- evidence number
- your name
- your AAT membership number.

The evidence number to use for each document is stated in the table on page 13.

Example

Your name is Simon White, and your AAT membership number is: 12345678

Evidence 1

A document showing all of the purchase invoices and credit notes (by purchase type) posted in June 20XX.

This document would be saved and uploaded as: Evidence 1 - Simon White - 12345678

If multiple documents are uploaded to show competency in an individual task, name these Evidence 1A and Evidence 1B and so on.

Documents must be produced in one of the following formats: PDF, XLSX, CSV, DOC, DOCX, BMP, GIF, JPEG, PNG. Screenshots may also be submitted using one of these formats. Assessment evidence submitted in alternative file formats will not be marked.

During the assessment, you will only make entries to the nominal ledger accounts you created in Task 3. You will not be required to make any entries to any accounts other than those you have already created.

Information

Using the information on the lower part of this page, ensure your accounting software package is set up correctly before you start the assessment. You should carry out this task yourself, without any help from the invigilator. Note: this task does not form part of the assessment requirements.

The Graze Office Store is a UK furniture business. The business sells a mix of new and second-hand office furniture and has been trading successfully for five years. The owner, Kate Allen, has always used spreadsheets to carry out routine bookkeeping tasks. However, the business has grown significantly over the last 12 months and Kate has decided to start using an accounting software package from 1 June 20XX onwards.

Information relating to the business:

| Business name: | The Graze Office Store | | | |
|------------------------|---|--|--|--|
| Business address: | 1 Hope Street Cathertown Lumley LM61 2RT | | | |
| Business owner: | Kate Allen | | | |
| Accounting period end: | 31 May (each year) | | | |
| VAT Number: | 781163367 (standard scheme) | | | |
| VAT rate: | Standard rate VAT of 20% charged on all sales. | | | |

Sales

Most of The Graze Office Store's income is generated from online sales where customers pay through an online payment system. The business also sells its items to other businesses in the north and south of the United Kingdom. Kate likes to keep a record of the different sales made by the business, by sales type:

- online sales
- sales to shops North
- sales to shops South.

Stock

All stock is stored in a rented unit, where goods are despatched from. The business purchases some of its products as completed units, which are ready to be sold on. Other items are produced by the business with the raw materials being purchased from suppliers. Kate likes to monitor these costs separately:

- purchases completed units
- purchases raw materials.

You have been asked to carry out the bookkeeping tasks for June 20XX **only**, the first month that the business will be using computerised accounting software and the start of the new accounting period. All documents have been checked for accuracy and have been authorised by Kate Allen.

Before you start the assessment you should:

- Set up the business name, address, owner and accounting period.
- If required by your software, please add the VAT number and rate.
- Set the system software date as 30 June of the current year.
- Set the financial year to start on 1 June of the current year.

Depending on the requirements of your software, you may be unable to set the opening balances to the date shown. If this is the case, you may select an alternative opening balance date. Your result will not be affected. Please ensure that any reports prepared cover an appropriate period in relation to the dates you have set.

Notes

- 1. As the individual customer and supplier balances have already been posted, the accounting software you are using may require you to make a separate adjustment for these.
- 2. The software you are using may not require you to post these balances individually. The opening balance on the account is £4,560 (credit) if posting as a single brought forward balance.
- 3. These nominal accounts are needed for transactions taking place in June 20XX.

In the rest of the assessment, you will only make entries to the nominal ledger accounts you created in Task 3. You will not be required to make any entries to any accounts other than those you have already created.

Task 4 (15 marks)

Refer to the following summary of sales invoices and summary of sales credit notes. Enter these transactions into the accounting software, ensuring you enter all the information below and select the correct sales code.
